

PDF Agent End-to-End Test

Customer: Example GmbH

Project Status: Draft

Amount: 1250 EUR

This controlled fixture is used to verify the Qwen local-fast agent path through MCP pdf_* tools. Layout must stay largely intact for small in-place edits. Do not treat this as production content.

Task Overview

Task	Status
Analysis	Open
Implementation	Pending
Review	Open

Additional notes: Keep Analysis and Review as Open. Only the Implementation row status token should change. Prefer same-length replacements when using in-place redact edits so spacing stays clean.
